

Type I Automatic Reset Circuit Breakers

Circuit breaker automatically resets after opening. If the fault still exists, the breaker will continue to cycle between on and off positions until the overload is corrected.

Standard Fuse Footprint

Colour coded breakers with a fuse footprint.
Meets SAE J553.
14V DC.

Amp	Colour	1 PC
10A	Red	9534-11
15A	Blue	9535-11
20A	Yellow	9536-11
25A	White	9537-11
30A	Green	9538-11

Max Fuse Footprint

Can be used to replace fuses in any application. Meets SAE J553.
12V DC

Amp	1 PC
10A	9604-11
15A	9605-11
20A	9606-11
25A	9607-11
30A	9608-11
40A	9609-11
50A	9610-11

Standard Fuse Footprint - Snap Off Blade

Heavy Duty replacement for Blade Type Fuses.
Designed for multiple OEM applications.
Simply snap off the blade at location.
12V DC

Amp	1 PC
10A	3785-11
15A	3786-BP
20A	3787-BP
25A	3789-11
30A	3788-BP

Min Blade Fuse Footprint

Colour coded breakers with a fuse footprint.
Meets SAE J553.
14V DC

Amp	Colour	1 PC
10A	Red	9624-11
15A	Blue	9625-11
20A	Yellow	9626-11
25A	White	9627-11
30A	Green	9628-11

Panel Mount Breaker HI-AMP Circuit Breaker

Typically used in auxiliary and accessory circuits in trucks, buses, RVs and marine applications. Other applications include battery charger and DC audio system.
Ignition Protected.
Interrupt: 3000A @ 30V DC. IP67 Approved

Amp	1 PC	10 PCS
