

PICO®

8391-8396 Specifications Sheet

10'	25'	Nominal I.D.	Unshrunk Diameter/mm	Shrunk Diameter/mm
8391-34	8391-24	3/4"	20	10
8393-34	8393-24	1-1/2"	40	20
8394-34	8394-24	2"	50	25
8396-34	8396-24	2-3/4"	70	35

Notes

- Highly Flexible
- Halogen Free
- Excellent Chemical Resistance
- Superior Abrasion Resistance over a wide temperature range
- Cuts easily with scissors
- Material: Polyolefin/ Polyester
- Non-Flame Retardant

Performance Characteristics:

Continuous Operating Temp.
Shrink Temperature

-40°C to 125°C
135°C (275°F)

Applications:

Mechanical abrasion protection, severe environment protection, noise and rattle protection and flexing application.
